BRITISH SOCIETY OF
GASTROENTEROLOGY
EDUCATION

Holiday Inn Royal Victoria, Sheffield
Friday, September 23rd, 2016

Dear GI Friends and Colleagues,

Thank you for your continued support of this meeting.

This is the 8th Sheffield GI Symposium (under the auspices of the BSG). The programme as ever determined by delegates from last year's meeting and whatever seems topical! There are national and international speakers providing evidence based overviews of topics which are perhaps contentious. We hope that the talks are relevant and will influence your clinical practice. The programme provided covers some very novel areas that are emerging, new therapies, endoscopy practice points and some really difficult clinical problems.

CPD accreditation is available (4 points)

Last year we had >300 delegates on the day and your feedback/evaluation forms suggested a >90% good to excellent rating. We really want to stress that this meeting is for everyone: trainees, consultants, associate specialists, nurses from endoscopy, clinics, or GI ward background, dietitians or even junior doctors who fancy a career in gastroenterology or just an update. Anyone with an interest in Gastroenterology!

So please share this brochure out with anyone you think who maybe interested in your department. The meeting is entirely free. There are 300 places. We have to pay for the delegates upfront (approximately £100 per person) and for this reason I really want to make a plea that if you have registered and are not able to attend please let us know so we can let someone else use that place

To register please email Deborah.French@sth.nhs.uk with your name, position, hospital base, contact number and email address. Please also let us know if you have any dietary requirements.

The meeting is entirely free and the Sat Nav postcode is S1 2AU

The venue is easily accessible (just off the A57 on the outskirts of Sheffield city centre, thus avoiding traffic). This is very close to the Sheffield train station so jumping on a train from where you are brings you to within a 5 minute taxi drive or 15 minute walk to the venue. Parking is free of charge. All delegates will be provided with relevant papers and reviews which will hopefully augment talks (on the day).

We do hope you will attend. Many of you have made this a regular slot in your CPD calendar and we are grateful to you for your continued support.

Best wishes,

David S Sanders

Research training opportunities at the Royal Hallamshire Hospital

Are you interested in a research opportunity? The five previous research fellows have all been awarded their MDs and published up to 20 publications (3-5 original papers).

We are always interested in enthusiastic trainees at any level who would like to do research. Even if you would only wish to write a single paper or case series we can help. We have a wide choice of research areas.

We now have Post CCT fellowships with the first Joint Royal College Physicians Training Board accredited fellow (JRCPTB) working within the small bowel service - come and chat to us. ☺

Coffee

HPB update

Chair: Dr Charlie Millson and Dr John Leeds

3.00-3.15

Portal Vein Thrombosis
Dr Dhiraj Tripathi

3.15-3.30

Hepatobiliary manifestations of GI disease
Professor Gideon Hirschfield

3.30-3.45

How I do it: Pancreatic cysts
Dr Manu Nayar

3.45-4.00

Acute liver derangement on-call
Dr Barbara Hoeroldt

4.00

Chair: remarks and close of meeting

Directions

Every year delegates find sat nav lets them down so below are some landmarks for you to use as a visual guide once you exit Park Square roundabout. The accurate postcode for sat nav users is **S1 2AU** which will direct you to the bottom of the drive.

1

Turn right when you see the Metropolitan Hotel and bear left.

Continue under the archway which says 'Royal Victoria'.

2

3

Carry on up the driveway to the car park straight ahead.

Professor Robin Spiller

We are delighted to have the much loved and inspirational Professor Robin Spiller give the Bardhan Lecture, based on his outstanding International contribution to Functional Gut Disorders.

His work will have undeniably changed your practice even if you were unaware of it! No one in the UK has clarified our knowledge and understanding of this field quite like Prof Spiller.

The Sheffield Victoria Railway used to terminate where the meeting is being held. Thus passengers disembarked and saw the Royal Victoria Hotel.

- ▶ As a result the war memorial is situated here - if you have a moment please have a look.

core
FIGHTING GUT AND LIVER DISEASE

Please take a moment to chat with both BSG and CORE staff who have taken the time to attend. They are in the Grand Lounge as you walk in.

The Science of Digestion 17.00-19.00
